教育部与公安部联合召开
“关于严厉打击网上学历造
假新闻发布会”

■ 什么是学历?

“学历”是指人们在教育机构中接受科学文化教育和技能训练的学习经历。一个人在什么层次的教育机构中学习，接受何种层次的训练，便具有相应层次的学历。高等教育学历证书是国家认可的接受高等教育的凭证，因此也称为学历文凭。

根据1950年6月，中华人民共和国教育部颁发的《关于高等学校颁发毕业学生证书暂行办法》，中国的高等教育学历制度是从1950年起开始实施的。中国目前国民教育系列的高等教育学历分专科、本科、硕士研究生和博士研究生四个层次；从学历系列上讲，主要包括专科、本科、第二学士学位班、研究生班、硕士研究生和博士研究生六个方面。中国高等教育毕业学历主要有三种证书，即：普通高等教育毕业证书、成人高等教育毕业证书和高等教育自学考试毕业证书。从学制上分，专科有两年制或三年制，本科有四年制和五年制(医学专业)，硕士有2.5年或三年，博士3-5年。

高等教育学历证书由经国家教育行政部门批准备案、具有学历教育资格的普通高等学校、成人高等学校、民办高等学校颁发，高等教育自学考试毕业证书由自学考试委员会和依托教育的学院共同颁发。

1993年以前，高等教育学历证书由高等学校印制，成人高等教育从1993年起，普通高等教育从1994年起，使用教育部统一印制的毕业证书；2000年教育部开始建立普通高等教育学历证书电子注册制度，不再统一印制高等教育学历证书，改由高等学校自行印制，但高等学校所颁发的毕业证书，必须报教育行政部门进行电子注册，并供网上查询。2001年在全国实行各类高等教育学历证书电子注册制度。

■ 什么是学位?

从1981年起，中国高等教育在实行学历制度的同时，开始实行学位制度。学位是标志被授予者的受教育程度和学术水平达到规定标准的学术称号。中国学位分学士、硕士、博士三级。

■ 学历与学位的联系与区别?

通常本科毕业生和毕业研究生获得毕业证书后，即可获得学位证书，因未设置专科学位，专科毕业生只颁发毕业证书，而无学位证书。学位不等同于学历，学位可以申请，获得学位证书的，不一定具有学历证书，即不一定取得毕业证书，取得毕业证书的，也不一定能够获得学位证书。学位证书的内容与学历证书的内容大致相同。

■ *What is qualification level?*

Qualification level refers to a person's experiences of acquiring scientific and cultural education or training at educational institutions. Students attain corresponding qualification levels depending on the levels of the school or training they have attended. Higher education qualification certificates (abbreviated as HEQC in the following), also known as diplomas of qualifications or graduation diplomas, are state-recognized evidences of their holders having received higher education.

China's HEQC system has been in force since 1950 in line with the Tentative Regulations on the Conferment of Certificates upon Graduates by Higher Education Institutions, promulgated in June that year by the Ministry of Education of the People's Republic of China. In China's national educational system today, HEQC are conferred on graduates of the following four levels of courses of studies: vocational training, undergraduate, master and doctor; In terms of series of HEQC, they cover these six courses: vocational training, undergraduate, second bachelor's, diplomas of researcher's classes (which no longer exist now), master's and doctor's; China's HEQC have three categories: for graduates of regular higher education, adult higher education and self-taught higher education examinations students; In terms of the length of courses, a vocational training is two or three years, undergraduate is four years (or for medicine five), master's two-and-a-half or three, and doctor's three to five.

Qualified regular, adult and private institutions of higher education that have had the approval of relevant national educational administrative authorities confer HEQC. Provincial Self-taught Higher Education Examinations Committees and their associate colleges jointly confer self-taught graduation certificates.

Until 1993, HEQC had been printed by conferring institutions themselves. Those for adults (from 1993) and those for regular higher learning students (from 1994) were printed by the Ministry of Education. In 2000, the Ministry established an electronic registration system for regular HEQC, no longer printing them for nationwide use. Then, individual institutions printed and conferred them and were obliged to report their conferment to the national educational administrative authorities for the purpose of electronic registration and online inquiry. Since 2001, all HEQC in the country have been electronically registered.

■ *What are academic degrees?*

Since 1981, at the same time when the HEQC system was implemented, an academic degree system was also launched. Academic degrees are academic titles that indicate that the conferees' education and academic qualifications have attained specific levels. China's academic degrees are the bachelor's, master's and doctor's degrees.

■ *Graduation diplomas and degree certificates: their associations and differences*

When a college or university student or a postgraduate has graduated, they are conferred upon degree certificates as well as graduation diplomas. As there are no degrees available for vocational training courses, their graduates get only graduation diplomas, not degree certificates. Academic degree certificates are different from diplomas. You can apply for degrees. Degree certificate holders do not necessarily have graduation diplomas, i.e., they may not be have been conferred on a diploma, while graduation diploma holders are not necessarily qualified for a degree certificate. As far as their content is concerned, the degree certificate and the diploma are very much the same.

Work Flow of Electronic Registration of HEQC

■ *State Council leaders' instructions on electronic registration of higher education qualification certificates*

Leaders of the State Council, out of their deep concern about the rampant forging of diplomas, have made several instructions:

In March 1998, that a system for student registration, pre-verification and filing of student academic records should be established and opened to public inquiries through electronic means; In January 2001, that an online diploma inquiry system should be established and opened to the public so that forgers will get duly punished; And in February 2001, that the establishment of an online diploma inquiry system should be expedited so as to stem the tide of forging.

■ *Electronic registration of higher education qualification certificates*

In order to meet the demand of the reform of higher education, promote a healthy development and guarantee the quality of it, safeguard the solemnity of qualification certificates and the State higher education qualification mechanism, and protect the entitlements of diploma holders, the Ministry of Education decided to carry out, as from 2001, electronic registration of HEQC. Diplomas registered with the provincial and municipal higher educational institutions shall be verified and put on record by the Ministry of Education before they are acknowledged and protected by the State. The Ministry of Education entrusted CHESICC to take charge of the technical and day-to-day work involved in the electronic registration of HEQC, their approval, online inquiries and verifications.

The electronic registration covers State-recognized HEQC, including certificates of master and doctor, regular and adult undergraduates and vocational training courses, self-taught examinations, national diploma examinations and Internet-based education. Items to be electronically filled in include: the name, gender, date of birth, college/university, major, course level, times of matriculation and graduation, ID certificate, graduation photograph, comments on graduation/course completion, and the serial number of the diploma/certificate.

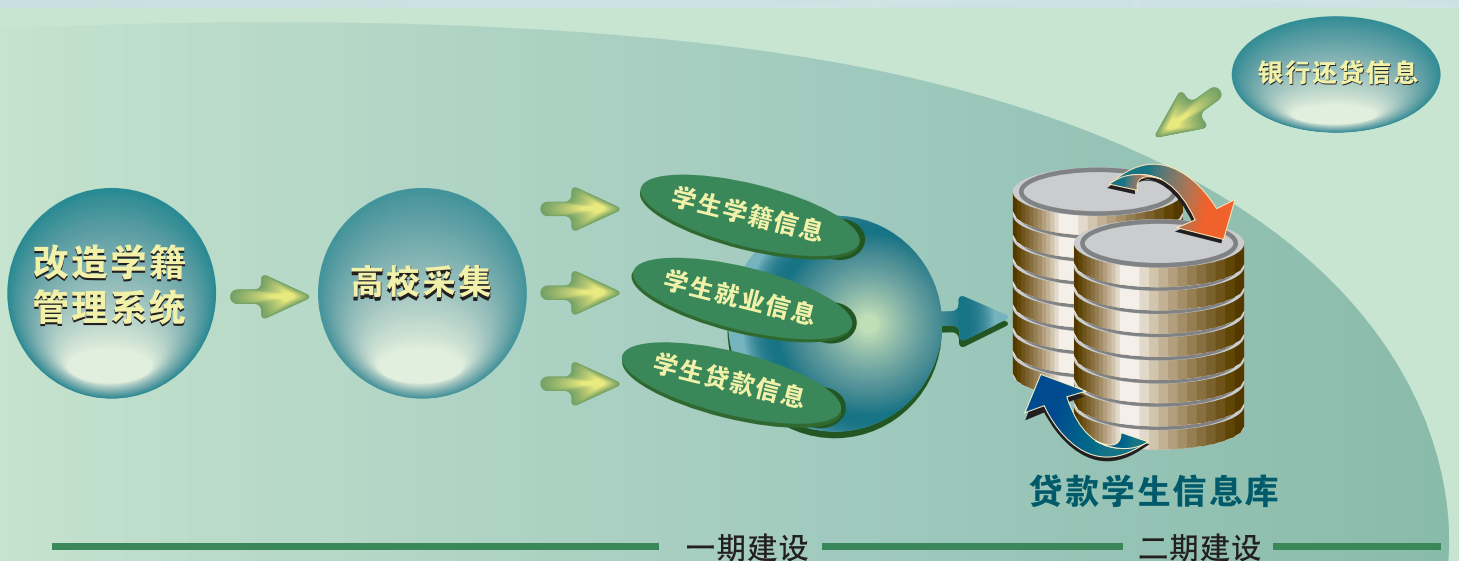

■ 国家助学贷款学生个人信息查询系统建设

根据国家科技教育领导小组第十次会议的有关精神，按照中国人民银行、教育部、财政部联合下发《关于切实推进国家助学贷款工作有关问题的通知》要求：“利用高等教育学历查询系统，收集国家助学贷款借款学生的有关信息，接受经办银行对贷款学生个人情况的查询，逐步建立普通高等院校学生个人信用征询系统”。2002年教育部将国家助学贷款学生个人信息查询系统的建设委托中心，系统建设由教育部高校学生司主管，教育部财务司和全国学生贷款管理中心业务指导。

2002年7月22日原中共中央政治局常委、国务院副总理李岚清在《教育部办公厅关于全国高等教育学历查询系统建设进展情况的报告》批示：“应加快建设进度，并不断完善，坚决刹住伪造学历的歪风，并建立贷款学生的信用体系，推动贷学金的健康运作。”

2002年9月，系统一期建设通过有关部门鉴定。截至2004年，全国已共有179229名贷款毕业生的信息进入数据库。

■ *Establishment of an Inquiry System for Personal Information on Students Who Have Borrowed National Student Loan*

In line with the spirit of the 10th Conference of the National Leading Group for the Development of Science, Technology and Education and as required by the Circular on the launch of a National Student Loan issued jointly by the People's Bank of China, the Ministry of Education and the Ministry of Finance, which says, "Through an online diploma inquiry system, information is to be gathered concerning those students who have borrowed National Student Loan, and is to be made accessible to lending banks, so that a credit check system on loan-borrowing students is gradually established." In 2002, the Ministry of Education entrusted CHESICC to establish such a system, which was to be placed under the administration of the Department of College and University Student Affairs of the Ministry of Education, which is to receive operational guidance from the Department of Finance of the Ministry and the National Student Loan Administrative Center.

On July 22, 2002, Vice Premier Li Lanqing made this directive comment on a Report on the Progress of Establishing a National Inquiry System on Higher Education Qualification Certificates, "Work should be expedited and the system will need constant refinement so as to crack down on diploma forgery. A mechanism on the credit of loan-borrowing students should also be established for the healthy operation of the National Student Loan program."

In September 2002, phase 1 of the system passed the assessment of relevant agencies.

■ 数据仓库建设

2002年6月，教育部批准，中心正式启动数据仓库建设，截止2004年底中心已先后完成一期和二期的建设。目前数据仓库采取了双网接入、双机热备、负载均衡、防火墙、磁带机备份系统等策略，采取前台多台WEB服务器，中间应用服务器，后台数据库的三层结构，能够承担较大的访问压力，并经受了全国硕士研究生网上报名的考验，根据中国软件评测中心的压力测试，在未启用所有设备的前提下，并行访问能力超过2000。

■ 数据库资源

中心受教育部委托，建立了全国高等教育学历信息数据库和各类招生录取数据库。截止2004年学历数据累计3152万人，毕业生图像信息累计1746.8万人；招生数据累计3132万人(含97年以来的普通高校招生录取数据，2000年以来的成人高校招生录取数据，97年以来的硕士研究生招生录取数据和2000年以来的博士研究生招生录取数据)；毕业生就业数据累计430万人(含92年以来的毕业研究生和94年以来的中央部委院校普通高校本专科毕业生)。

■ *Establishment of Data Warehouse*

With the approval of the Ministry of Education, CHESICC formally started, in June 2002, the construction of its data warehouse, whose phase 1 and 2 projects had been completed by the end of 2004. At present the data warehouse adopts such tactics as dual-net access, double hot standby, load balance, fire wall, tape drive backup system, and a triple structure with multiple website servers in the front, the application server in the middle and the database in the back, which can withstand large access pressure. It has withstood the test of nationwide online applications for Master's Entrance Examinations. According to a pressure test conducted by the China Software Test Center, the parallel access capacity, without all equipment activated, exceeded 2000.

Since 2001, China has implemented electronic registration of higher education qualification certificates and the Ministry of Education has entrusted China Higher Education Student Information and Career Center under its administration to take charge of services for online inquiries and verifications of electronic registration of such diplomas.

Recently, some lawless elements, taking advantage of the confusion between website names and domain names, have established websites with names similar to that of the inquiry website of electronic registration of higher education qualification certificates of the Ministry Education or have copied relevant content from it, to illegally forge diplomas for sale. In order to safeguard the solemnity of the State qualification mechanism and qualification certificates, prevent the public and individuals from being cheated and suffering damage, we hereby reaffirm that the China Higher-education Student Information Website (<http://www.chsi.com.cn>) is the only website for inquiries about Higher Education Qualification Certificates conferred in China and that China Higher Education Student Information and Career Center is a specialized body as authorized by the Ministry of Education to carry out verifications of such qualification certificates or diplomas.

II. Ministries of Education and Public Security joint press conference on crackdown on online diploma forging

In April 2004, the Ministry of Education learned and found that some lawless forgers, taking advantage of the confusion between website names and domain names, had established websites with their names similar to that of the Electronic Registration and Inquiry Website on Higher Education Qualification Certificates of the Ministry of Education, or have copied relevant content from it, to carry out illegal diploma forging and sale. In order to safeguard the solemnity of the State qualification systems and qualification certificates, prevent organizations and individuals from being cheated, the Ministries of Education and the Public Security jointly held a press conference on the crackdown upon online fake diplomas, at which they exposed forging websites and forging methods and revealed how a "China Certificate Website" was uncovered. An announcement was issued to reiterate that the China Higher-education Student Information Website (www.chsi.com.cn) is the only website for the inquiries about Chinese higher education qualification certificates and that CHESICC is a specialized body authorized by the Ministry of Education to carry out qualification verifications.
